

TECHNICAL PEOPLE LEADER

Nothing is more exciting for individual contributors than to receive their first leadership position. It can also be a very challenging transition, even more so if the new leader is a technology professional. Excellent technical expertise is often what propels them into a leader role, but how are they developing their leadership capabilities? The promise of these programs is in transforming the lone wolf technologist into the leader of the pack.

PROGRAM OPTIONS

- **Accelerating Team Leadership©**
An engaging six or twelve month program that kicks off with a two-day team foundation workshop targeting peer team leaders within the organization. Twelve 2-Hr virtual discussions are held twice per month for 6 months with additional 9- and 12-month check-ins targeting key leadership issues.
- **Architecting the Technical People Leader©**
A collaborative six-month program in which a group of individuals with common experience and requirements kick off their work together in a 3-hour virtual workshop identifying and recognizing growth opportunities. Two-hour virtual meetings are held once per month for 6 months with additional 9- and 12-month check-ins.
- **Bonus: Individual Leadership Coaching**
Every participant has access to three or six hours of individual coaching throughout the life of the program.
